SUPER MARIO BROS.®

OBJECT OF THE GAME/GAME DESCRIPTION

One day the kingdom of the peaceful mushroom people was invaded by the Koopa, a tribe of turtles famous for their black magic. The quiet, peace-loving Mushroom People were turned into mere stones, bricks and even field horse-hair plants, and the Mushroom Kingdom fell into ruin.

The only one who can undo the magic spell on the Mushroom People and return them to their normal selves is the Princess Toadstool, the daughter of the Mushroom King. Unfortunately, she is presently in the hands of the great Koopa turtle king.

Mario, the hero of the story (maybe) hears about the Mushroom People's plight and sets out on a quest to free the Mushroom Princess from the evil Koopa and restore the fallen kingdom of the Mushroom People.

You are Mario! It's up to you to save the Mushroom People from the black magic of the Koopa!

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

3. HOW TO PLAY

As this game proceeds the screen gradually advances to the right. The Mushroom Kingdom is made up of a number of worlds, and each world is divided into 4 areas. The fourth area of each world ends in a big castle. The Princess, as well as her mushroom retainers, are being held in one of the castles by the turtle tribe. In order to rescue the Princess, Mario has to make it to the castle at the end of each world within the given time. Along the way are mountains, pits, sea, turtle soldiers, and a host of traps and riddles. Whether or not you can make it to the last castle and free the Princess depends on you. You're going to need sharp wits and lightning reflexes to complete this quest!

Starting position and time progress

- At the beginning of the round, play starts from the beginning of the area; however, once Mario gets about halfway through an area, he doesn't have to go all the way back to the beginning after getting done in by one of the bad guys.

* When you get to the last castle, you start the game over from the castle entrance.

- When play starts, the clock in the upper right of the screen starts ticking away. Any time left on the clock when you get to the end of each area is added to your score as bonus points.

* There is no remaining-time bonus when you get to the very last castle.

Finish Area

- At the end of each area there is a small castle, but before you get to the castle you have to go up a big staircase and jump onto a flagpole. The higher you jump onto the flagpole, the higher the bonus you receive.

Pointers

Jumping.....Mario and Super Mario both jump the same height.

- The height Mario jumps depends on how long you hold the A button down.
- You can use the  control pad to make Mario hook to the left or right even in mid-air!
- Pushing the B button makes Mario speed up, and when Mario is speeded up he can jump higher.

Bonus Prizes

- If Mario picks up 1 up mushroom, he gets an extra life.
- If Mario picks up 100 coins, he gets an extra life.
- In addition, there are other ways to get an extra Mario.

Mario, Super Mario, Invincible Mario, etc.

Mario's Friends

If you come across mushrooms who have been turned into bricks or made invisible, they reward you by giving you a power boost. With each boost Mario changes into a different, more powerful Mario, as shown below.

(return to regular Mario when bumped into by a bad guy)

- * When Super Mario or Fiery Mario are bumped into by a bad guy, they don't die but simply return to their old regular-Mario selves.
- * For a short while after turning back into his regular-Mario self, Mario flickers. During this time, he can not be killed by bad guys (he's invincible).

How to topple the Turtle Tribe

- Bad guys on top of the bricks can be taken care of by punching from below. Bad guys on the ground can be done in by jumping on top of them. If you bump into an enemy from the side or from below, you die.
- * When in the water, no matter what direction you hit the bad guys from you die.

- If you stomp on a Koopa Troopa, he becomes  and stays motionless for a while. During that time, you can kick him and send him flying to knock down other enemies.
- When Mario has fireballs, use the B button to throw them and fry the enemy.
- Some bad guys can't be killed. Look out for these immortal creeps!
- The points you get depend on how you kill the enemy. Try a few different methods to see which gives you the most points.

Beware! The following are deadly:

- Bumping into members of the Turtle Tribe and other baddies. Walking into flames.
- When you bump into a  you had once kicked.
 - * However, Super Mario turns into regular Mario and the game continues at that spot.
- When you fall into a pit or get sucked down a drain.
- Time runs out.

Secret Tricks

Sssh! Don't
tell anyone!

Bulldozer attack

- Kick one of the  and then run right behind it (use the B button) and your path will be cleared for you as your enemies are sent flying.

* Just look out for ricochets. If the  runs into a , your attack will backfire and you'd better move fast to keep from getting swept off yourself.

- If you want to get a lot of points, be sure not to leave any enemies alive behind you, since the more enemies you kill the more new ones appear. Especially, when using the "bulldozer attack," make sure all the enemies on the screen are wiped out before continuing to the right.

- Because the screen moves from left to right, there are enemies off the edge of the screen that can't be seen. You can't kill enemies you can't see by sending a  off the screen after them. Why not? Maybe they jump over the enemy when Mario isn't looking . . . !

Strangely enough, however, if a kicked  bumps into a  off the screen, it comes ricocheting back at Mario. If you hear the sound of a ricochet, jump right away so you'll be ready when it comes flying back onto the screen.

- When a  comes ricocheting back at you, it's possible (for a real pro, that is) to stomp on the turtle one more time and stop it.
- There are plenty of other tricks — see if you can discover them on your own.

Chain-reaction techniques

- Use the old "Domino Effect" (ask your parents) to wipe out a bunch of bad guys one after the other to get high points.
- Each coin you grab is worth 200 points. If you collect 100 coins, besides the points for the coins you also get an extra Mario. Without a doubt, a lot of coins are tucked away somewhere . . . (why do ya' suppose this is under "Chain-reaction Techniques?").

Top Secret

- * You get 50 points for each brick you smash . . . try punching lots of different places.
- * There are several different ways to get an extra Mario . . . try to figure them out for yourself.
- * At the end of an area (after you jump onto the flagpole), fireworks may go off, and for each explosion you get 500 points. The reason the fireworks go off is a secret; see if you can figure it out.

5. HOW TO PLAY

Game A:

In this game you hunt ducks one at a time.

- * When the hound finds a duck, it barks and jumps into the thicket. Ducks will then fly up one at a time. (The ducks will fly up from various locations.)
- * The duck flies around the screen for a few seconds. This is your chance. Aim and shoot! But remember, you only have three shots.
- * The flashing duck at the bottom of the screen is your hit indicator and will turn red if a hit is scored.
- * A MISS occurs when all three shots are unsuccessfully used up, or when time has run out. When this happens, the color of the sky changes, and the duck flies away. (The hound comes out and laughs at you.)
- * Sometimes off-colored blue or off-colored red ducks appear. You get a bonus score for shooting these.
- * Each round ends after 10 ducks have flown out of the thicket. The PASS LINE at the bottom of the screen indicates the minimum number of ducks that must be hit to advance to the next round. If you hit this number of ducks or more, you advance to the next round; otherwise, the game ends.
- * The ducks fly faster, and the number of ducks in the PASS LINE increases as you advance to later rounds.

[2 Players:]

GAME A can also be played with two players.

- * One player is the hunter. The other player controls the ducks horizontally and vertically with the control pad, trying to avoid the hunter's shots until the sky color changes. (Ducks automatically escape when the sky color changes.)

GAME B (Duck Hunt)

In this game, two ducks fly up at the same time.

- * The game is played in the same way as GAME A, but the color of the sky doesn't change.
- * This game can only be played with one player.

GAME C (Clay Shooting)

This game is a version of trapshooting.

- * Clay pigeons spring out and fly away in the distance two at a time. Aim carefully, and shoot them.
- * The clay pigeons become small very quickly as they fly away. It is easier to shoot them when they are close.
- * As in GAMES A and B, a PASS LINE indicates the minimum count necessary to advance to the next round. The game ends if the minimum is not achieved.

Clay Pigeon Duck

[Shots:]

- GAME A** Three shots per duck
GAME B Three shots per two ducks
GAME C Three shots per two clay pigeons

[Scoring:]

GAMES A, B and C

- * The points received show up on the screen wherever a hit is made. Points differ depending on the round.
- * A PERFECT bonus is awarded when a round is ended without a MISS.

[Advancing to the next round]

- * If the hit indicator has reached the PASS LINE at the end of the round, you advance to the next round; otherwise, the game is over.
- * The minimum count on the PASS LINE gradually increases as the rounds advance (starting from the 10th round).

[Round number]

- * Round numbers are indicated with "R = "
